## FREELANCING

---

As a full stack developer, I am skilled in building dynamic and responsive web applications using Python, Django. With a strong understanding of both front-end and back-end technologies, I am able to design and develop intuitive user interfaces and build robust and scalable back-end systems. With a commitment to staying up-to-date with the latest technologies and best practices, I am always looking to enhance my skills and deliver high-quality work to clients.

## EXPERIENCE

---

### Currently Working in Digischarcss as Full Stack Developer (May 2023)

I have had the privilege of serving as a Full Stack Developer. During my tenure with the company, I have been an integral part of a dynamic and innovative team, contributing to the development and implementation of cutting-edge software solutions.

### Worked as a Freelancer (Jan 2023 to May 2023)

Leveraging my expertise in Full stack development to deliver high-quality projects to clients across a variety of industries, Following my rewarding internship at Virash Technology, I embarked on an exciting freelancing journey as a Full Stack Developer from January to May. During this period, I embraced the challenges and opportunities of working independently with diverse clients and projects.

### Internship at Virash Technologies LLP as a Full Stack Developer (July 2022 to dec 2022)

As a highly motivated and ambitious individual, I had the privilege of serving as an intern at Virash Technology from July to December. During this immersive experience, I was entrusted with the role of a Full Stack Developer, where I played a key part in developing and enhancing innovative software solutions.
